FREMONT, CA – Today, Sapphire InfoTech announced that it has exhibited its TestSmart Ver 2.8 in ToolaPalooza @ Cisco, India.

Highlight of the Major features exhibited in TestSmart 2.8:

- Legacy / Existing ATS Libraries support
 - Import of the Individual BUs libraries as TestSmart TestCase objects;
 - Drag & Drop the imported Testcases into TestSuite Objects along with newly built CLI Testcases;
 - Render the TestSuites built using imported Testcases + CLI Testcases into ATS scripts and then execute them on Cisco's ATS platform
- Topo-Map Import / Export capability
- Batch import of Large Libraries
- Tftp and For-Loop regions feature

About Sapphire InfoTech

Sapphire InfoTech is a Fremont; California based software Solutions Company that provides test automation and provisioning solutions for multiple industries. The company's initial offerings have already helped Telecom and Networking enterprises achieve faster product testing and certifications, lowering development time and expenses when compared to traditional testing methods. Sapphire InfoTech was founded in 2000.
